INTRODUCTION

all-round way various fields

Established in 1996, FST Co.,Ltd. located in the birthplace of the chinese private economy, where is the main production base of chinese sprayers--Luqiao District, Taizhou City, Zhejiang. Company has formed into a provincial-level high-tech enterprise covers R&D, manufacture, sales and service.

With more than ten years' efforts, FST company has been developing into the first non-regional and trade limit enterprise in the countrywide sprayer industry.It has wholly-owned subsidiaries such as Sanmen Fusite Industry and Trade Company, Fusite Clean Equipment Co.,Ltd. and Taizhou Fusite International Yacht club. With registration capital of 1 billion RMB, FST has an area of 30,000 square meters and construction area of more than 36000 square meters.With more than 250 sets processing equipments from Japan and Taiwan, Company has the ability of producing more than 100 million sets power sprayer annually. The assembling and processing capacity and the production scale has attained lthe advanced level in China.

Company valued the introduction and cultivation of talents. Throuaht the cooperation with foreign advanced sprayer roducing plants, FST enterprise technology center has been regarded as "municipal technology center" and "municipal high-tech research and development center". FST has got the honor title of "Zhejiang Patent Enterprise". "FST Brand" has been recognized as "Chinese Well-known Brand".

Company actively explore the foreign market, products are exported very well to many countries and regions, such as Southeast Asian, Middle East and NorthAmerica. Annual exporting income grows double folds, which makes us the biggestl exporting enterprise of knapsack power sprayer. " FST" will build China's national industry brand with our high efficienct, energy-saving, environmental and top quality sprayers for customers and will continue to upgrade the chinese agricultural machines.
